

Hunter Stoves Group launch DEFRA approved double-sided stove

08 November 2017 - A leading UK stove manufacturer, Hunter Stoves Group, has launched the Avalon 4 Double Sided Single Depth stove. One of the first DEFRA approved double-sided stoves available in the UK.

Hunter Stoves Group has worked hard to develop a clean double sided-stove, with the Avalon 4 Double Sided Single Depth providing a toasty 6kW output and efficiencies of over 75%, meaning a cosy home without damaging the environment. The stove is available as either a multifuel or wood-burning model and is DEFRA approved for use in smoke control areas.

This latest stove is testament to Hunter Stoves Group's commitment to developing efficient design stoves. Through its impressive Research and Development facility, Hunter Stoves Group continually adapts its stove technology to ensure it is at the forefront of producing environmentally efficient stoves.

Nick Rowe, Design Engineer at Hunter Stoves Group, commented,

'We're passionate about ensuring our stoves provide green-energy for the 21st century. As fossil fuels continue to deplete, advancements in efficient stove technology is becoming ever more important. Our latest stove, the Avalon 4 Double Sided Single Depth is one of the best examples of an energy-efficient stove on the market in the UK'.

Not only does the stove come out top on the environmental front, it is also visually appealing. The Avalon 4 Doubled Sided stove is perfect for open fireplaces and creates an impressive feature across two rooms, forming a focal point from every angle.

Stoves in Hunter's Avalon range are all DEFRA approved and manufactured from high quality 5mm thick steel, with cast iron components. They each feature the new Cleanburn technology, which lowers emissions and allows for greater performance and fuel economy. They include a dust-free de-ashing system that enables the grate to be cleaned easily, as well as a hot airwash system to keep the stove's glass clean and clear.

The Avalon 4 Double Sided Single Depth starts from £1399.
