GROUP

10 YEAR WARRANTY

## Hunter Stoves Group Warranty

Any appliance bought through the showroom of an authorised Hunter Stoves Group dealership will automatically be covered by our standard two-year conditional guarantee. However, this standard two-year warranty can be extended to a 10-year warranty. For full terms and conditions, please visit our website [www.hunterstoves.co.uk](http://www.hunterstoves.co.uk).

## Hunter Gas Collection

With expertly designed gas stoves that are suitable for both traditional and contemporary interiors, the Hunter Gas Collection offers something for everyone. Whether you're looking to heat a period cottage or a chic townhouse, we've got a solution to suit your needs. Choose between a range of fuel, door and canopy options to create a gas stove that's perfect for your home.

Take time to enjoy the beautiful flickering flames with their wonderfully natural flame picture, as well as the exceptionally realistic coal and log fuel beds. Sit back, relax, and enjoy the incredible realism, with the peace of mind that your gas stove is fitted with the highest standard of safety features. Each stove in the Hunter Gas Collection has the option of a remote control too, so you can stay curled up without having to leave the sofa!

# Herald 6 Gas

Flat top, coal fuel bed with contemporary single door.

The Herald 6 Gas stove capitalises on the award-winning styling of the Hunter Herald multifuel range. Boasting traditional charm alongside the most recent gas-stove technology, this model is a clever fusion of old and new. With a number of customisable options to choose from,

including a canopy and door crosses, the Herald 6 can be adapted to suit your interior style. If you choose the double door option, you can operate your stove with the doors open.

# Herald 6 Inglenook Gas

Inglenook with log fuel bed and optional traditional crossed doors.

Specifically designed for an inglenook or larger fireplace, the Herald 6 Gas Inglenook is a unique addition to Hunter's range of gas-fired stoves. It brings an abundance of country charm, complementing an exposed brick fireplace perfectly. Both the sweeping

curve of the specially designed canopy and the realism of the flickering yellow flames draw the eye to what is an appealing centrepiece for a favourite room. The Herald 6 Inglenook Gas can even operate with the door open, providing an extra-realistic view.

# Hawk 4 Gas

Flat top with log fuel bed and contemporary 'D' door option.

The compact Hawk 4 Gas stove is a small stove with a big heart. Its neat dimensions allow installation in a smaller fireplace, yet it still offers an impressive heat output. The realistic log effect will wow friends and

family alike, creating an envied focal point. With a choice between a traditional or contemporary door, you can style the popular Hawk 4 Gas so that it fits seamlessly into your home.

# Select 6 Gas

Flat top with plain double doors and log fuel bed.

The winner of two Hearth & Home Exhibition Awards, the Select 6 is an excellent-quality gas stove, celebrated across the market for its striking looks and impressive credentials. The optional gothic arch doors and brass

door knobs add a more traditional look, perfect for classically-styled fireplaces. Plus, the Select 6 can even operate with the doors open.

# Selene 6D Gas

Flat top with plain double doors and log fuel bed.

Gothic Arch Door option

Manufactured from high-quality steel, the Selene 6D gas stove adds a new dimension to the gas-fired collection from Hunter Stoves. The clever and simple design of the Selene 6D makes it an extremely versatile stove with numerous styling options. Not only can the Selene offer

traditional good looks with a gothic door option, but it can also gift a much more modern style thanks to the plain door option. The Selene 6D Gas can operate with the doors open, and with nothing to obstruct the view through the glass, the flame picture is even more glorious.

# Verona 6 Gas

Verona 6 with log fuel bed.

For a more contemporary gas stove, consider the Verona 6. The sleek and simple styling of the Verona stove, with its clean lines and large viewing window, will complement the most modern of settings. Available in a matt black

finish, it will create the perfect final touch in a chic townhouse or modern newbuild. Plus, its exceptionally realistic fuel bed delivers a romantic ambience, as well as a truly enviable flame picture.

# Technical Specification

## Gas Type

Stoves in the Hunter Gas Collection are suitable for both natural gas and LPG in conventional installations.

NB. LPG is only available with remote-controlled gas stoves.

## Heat Outputs

For maximum heat outputs, please see the technical key on the following page.

## Installation

All of the stoves in the Hunter Gas Collection are suitable for installation to a standard solid fuel Class 1 flue and Class 2 flue.

Depending on the situation, the stoves can be flued from either the top or rear.

## Fuel Type

Hunter Gas Collection stoves offer an exceptionally realistic fuel bed, with either a random coal or log effect. Whilst the stove remains in situ, a change can be made from coal to logs or vice versa, should you desire. \*

NB. The Hawk 4 is only available with the realistic log effect.

## Safety Features

For that extra peace of mind, each stove features an oxy pilot to safely monitor the oxygen level in the room. Should this fall below an acceptable level, the stove turns itself off. Likewise with the flame failure device, this safely cuts off the gas supply should the flame be extinguished.

## Control

Each stove in the Hunter Gas Collection is supplied with a top-quality manual control as standard. However, for added convenience, a hand-held, digital-display remote control is available as an optional extra. This handset can switch the stove on and off, and has seven flame picture settings. In the case of a misplaced remote control, the manual control allows continued operation of the stove. Plus, a handy pager system will audibly locate your remote device.

## Choices, Choices

There are many options for styling within the Hunter Gas Collection, which means you can choose a stove that fits your décor perfectly.

Please see each individual product range for the specific door, canopy and fuel options available, or refer to the technical key on the following page.

\* Fuel effect can only be changed by a registered engineer.
