Fusing heat, furniture & design

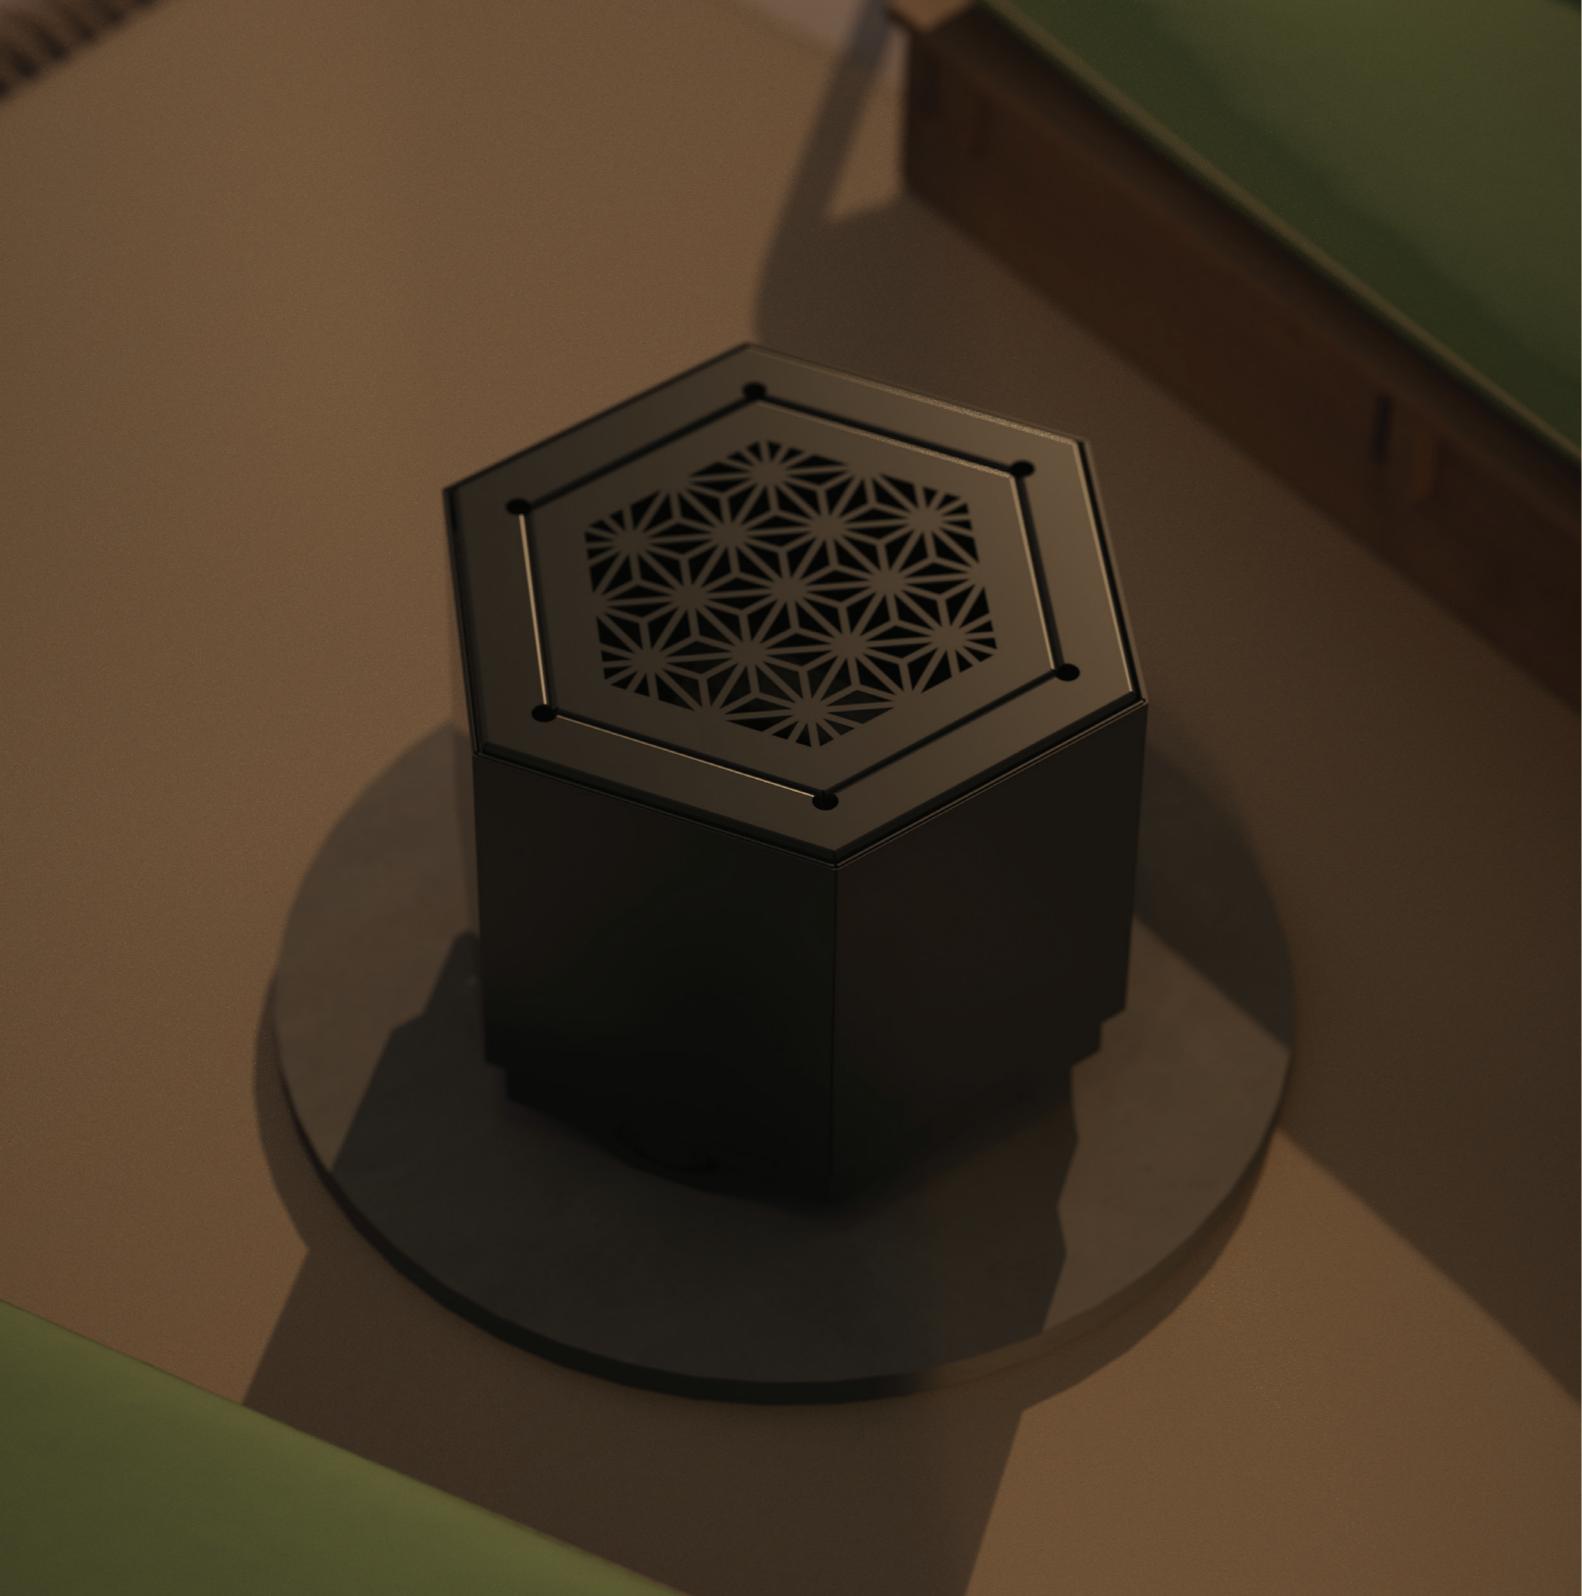

Engineered for modern outdoor living, Pollen by Hunter Stoves is a contemporary range of high-quality outdoor heating products designed to bring warmth, style and atmosphere.

Designed and crafted by one of the UK's leading wood-burning stove manufacturers, with over 40 years of expertise, this range blends style with performance.

The Hex

SMOKELESS
FIRE
PIT

From day to night, a multifunctional
fire pit that's durable, smokeless
and effortlessly stylish.

Hex

A sleek hexagon fire pit crafted for outdoor living. Modern and versatile, it delivers a clean, smokeless burn and is available in either bioethanol or traditional wood-burning options. With a choice of elegant tabletop designs, it transforms effortlessly into a piece of furniture – taking you seamlessly from day to night.

The Hive

FOUR SIDED
OUTDOOR
HEATER

Panoramic views and
controllable flames
with clear glass.

Hive

A four-sided outdoor heater designed to showcase panoramic views of the flame from every angle and the Cyclone Air technology ensures crystal-clear glass every time. Easy to light and control, it brings both warmth and atmosphere to any outdoor gathering. Available in either bioethanol or traditional wood-burning options, and with a choice of side panels, it can be customised to suit your space.

Features

Engineered to perfection, our products are designed and crafted by a team of specialised engineers with decades of combined experience. Every detail is carefully considered, from airflow dynamics to material performance, ensuring unrivalled quality and longevity.

These aren't just outdoor products – they are appliances with features that can only be achieved through true technical expertise. The result is a product that not only looks beautiful, but performs at the highest level.

HIGH PERFORMANCE

LOW MAINTENANCE

SAFE AND EASY TO USE

ASHPAN – CLEAN & TIDY

WEATHERPROOF COVER

Hex Firepit

DOUBLE-WALL SYSTEM

Maximise airflow. Fresh air feeds the fire from below for an easy start.

SMOKELESS

As the chamber heats, oxygen flows in from the top, re-burning smoke before it escapes.

CLEANBURN

The result: a hotter, cleaner burn with little to no smoke.

INTEGRATED TABLETOP

Seamless versatility from day to night – serving as both a fire pit and a stylish piece of furniture for your outdoor space.

Hive Outdoor Heater

AIRSYSTEM

Experience a stunning Cyclonic Flame, beautifully enhanced by four-sided panoramic views that create a natural and captivating fire.

CONTROLS

With an intuitive control, easily switch between 'Start Up' for instant ignition and 'run' for a perfectly steady flame.

INTEGRAL DAMPER

Refined Flue Design with Integral Damper.

Options

Both the Hex and the Hive can be tailored to your style with a choice of customisable designs.

The Hex tabletop and Hive log store panels can each feature your preferred pattern, creating a truly distinctive look.
